THREATENING DEATH**

(By United Press)
Newark, N. J., Dec. 11.—New indictments in New Jersey's \$50,000,000 rum smuggling scandal were in prospect today as officers continued to delve into the operation of the bootlegging syndicate which is alleged to have landed thousands of cases of liquor at Weehawken Pier under police protection.

Investigation is proceeding so rapidly that it now seems probable that new indictments will be asked within 24 hours, Assistant Prosecutor MacMahon said.

Developments in the case include:
1. Father George F. Bennot, Catholic priest who disclosed important details regarding the plot has received letters threatening him with death as a result of his activities. "You will never live to say Mass on Christmas," one of the letters said.

2. Prosecutor Milton of Hudson county, MacMahon and Chief County Detective Hayes seized the Weehawken station police blotter this morning, declaring they were "interested in something on it." The blotter served as a logbook and it is thought may have some record of the activity of 12 persons, including policemen and town officials, believed to have been members of the rum ring.

3. From three to eight new indictments, some of them against federal officers, are anticipated by the investigators.

4. Mrs. Rose D'Agostin, whose son Frank is believed to have been slain by the rum runners, offered a reward of \$1,000 for information which would lead to the conviction of his murderers.

FEDERAL GOVERNMENT WILL INVESTIGATE

Washington, Dec. 11.—Representatives of the Department of Justice will be sent to Weehawken, N. J., if any question of federal law or connection with the department is involved, it was stated at the department today.

Attorney-General Stone believes on the basis of present reports that the situation may call for federal investigation, although the matter is still considered a "local one."

SAN ANTONIO IF HE
SURVIVES**

(By United Press)
San Antonio, Dec. 11.—Samuel Gompers, aged president of the American Federation of Labor who was reported critically ill en route from Mexico City to the United States, may be brought through this city as the shortest route to his home. Gompers was placed on an International & Great Northern train yesterday and was being rushed to a lower altitude today because of a serious heart affection, according to reports here.

The veteran leader was stricken while attending the inauguration of President Calles in Mexico City.

Gompers will be brought through San Antonio if he survives, according to A. W. Hartman of this city, who was with the labor leader in Mexico City and who has returned here. Hartman said that he thought from his appearance after reaching Mexico City that the altitude was too much for Gompers.

Information here is that it is exceedingly unlikely the patient can survive the trip from the Mexican capital, as the railroad runs along mountain ranges much higher than the city itself. Gompers was put aboard the train last night and will probably reach Laredo late today.

Reports were received at Laredo from San Luis Potosi shortly before noon that Samuel Gompers was dead.

This information, telephoned to San Antonio from Laredo, stated that Gompers died on a train near San Luis Potosi while being rushed to a lower altitude after an attack of lung trouble.

The report of his death has not been definitely confirmed.

His stomach was affected by the high altitude and his respiration was weak.

The veteran leader was stricken while attending the inauguration of President Calles in Mexico City.

Gompers will be brought through San Antonio if he survives, according to A. W. Hartman of this city, who was with the labor leader in Mexico City and who has returned here. Hartman said that he thought from his appearance after reaching Mexico City that the altitude was too much for Gompers.

Information here is that it is exceedingly unlikely the patient can survive the trip from the Mexican capital, as the railroad runs along mountain ranges much higher than the city itself. Gompers was put aboard the train last night and will probably reach Laredo late today.

Reports were received at Laredo from San Luis Potosi shortly before noon that Samuel Gompers was dead.

This information, telephoned to San Antonio from Laredo, stated that Gompers died on a train near San Luis Potosi while being rushed to a lower altitude after an attack of lung trouble.

The report of his death has not been definitely confirmed.

GOMPERS IMPROVED DURING THE NIGHT

Washington, Dec. 11.—Samuel Gompers, veteran president of the American Federation of Labor, reported ill in Mexico, improved considerably during the night, according to a telegram received here today by Federation headquarters.

DOCTORS HAVE FAINT HOPE FOR PATIENT

Mexico City, Dec. 11.—Latest reports from the special car on which President Samuel Gompers of the American Federation of Labor is being carried to the American border are that the aged leader is "very low" and that his doctors "have faint hope he will live to reach the United States."

Gompers was carried aboard the train on a stretcher and appeared a very sick man.

His stomach was affected by the high altitude and his respiration was weak.

He also was suffering from a severe cold. In spite of advice of physicians that he take an airplane to Vera Cruz on the sea coast, Gompers insisted on starting for the border in a special car, saying that if he must die he hoped it would be in his home country.

MAY BE PLACED IN SAN ANTONIO HOSPITAL

Laredo, Tex., Dec. 11.—The train on which Samuel Gompers, president of the American Federation of Labor is being rushed to the United States, will arrive at 6:45 a. m. Friday, according to local officials of the International & Great Northern railroad.

Gompers, who is seriously ill, left Mexico City at 7 o'clock last night, they said.

The aged labor leader will be placed aboard a train for San Antonio and will continue his journey to

**STANDS WELL TO THE FRONT IN
THESE STATIS-
TICS**

(By United Press)
St. Paul, Dec. 11.—Minnesota and St. Paul had among the lowest death rates in states and cities of the country during 1923.

The state is tenth in the per capita death rate figured from the total population of states and of 32 states which supply the refined rates based on the ages of residents Minnesota was fourth, being tied with Utah for this place.

St. Paul holds 23rd place in the list of 61 cities giving the so-called crude rate based on the total population and tenth of 55 cities furnishing the refined rate.

CONFESSION MADE BY HIGHT MADE A RECORD

**HAD TOLD HIS STORY TO A GROUP
OF METHODIST
PREACHERS**

**CONFESSION, HOWEVER, DOES
NOT STAND AS AGAINST
MRS. SWEETIN**

(By United Press)
Mt. Vernon, Ill., Dec. 11.—The confession which Lawrence M. Hight made to a group of Methodist ministers in which the former pastor admitted his guilt in connection with the murder of Wilfred Sweetin and Mrs. Hight was entered in the evidence at the trial of Mrs. Elsie Sweetin and Hight for the murder of Wilfred Sweetin today.

Judge J. O. Kern allowed the confession to be entered as testimony against Hight but not against Mrs. Sweetin and the jury was so instructed.

Hight's attorneys had argued and presented witnesses for six hours in an attempt to prevent admission of the document.

The confession is quoted as saying: "I am sorry I committed those crimes. I do not know why I did it. I have wrestled with God and now I feel I am forgiven."

Taxes Cost 7 Per Cent of Products of Farms

Chicago, Dec. 11.—"Nearly 7 per cent of the gross value of all farm products went to pay farm taxes in 1923, as compared with 4.9 per cent in 1913," the Sears-Roebuck Agricultural foundation reported to the department of agriculture after a review of 17,182 reports.

"Taxes on the average farmlands amounted to approximately 17.7 per cent of the new farm returns," the report said. "The proportion of returns required to pay taxes ranged from 5.7 in Southampton county, Virginia, to 75.6 per cent in Chester county, Pennsylvania."

Washington, officials said they are informed.

In case his condition becomes worse, there is a probability he will be placed in a hospital at San Antonio, it was said.

KID MCCOY ON TRIAL FOR KILLING WOMAN

**STATE MASSES ITS CASE AGAINST
THE FORMER PUGIL-
IST**

**ONE WITNESS SAID HE HEARD
WILD SCREAMS FROM
APARTMENT**

(By United Press)
Los Angeles, Dec. 11.—The circuitous path taken by Kid McCoy after his sweetheart, Mrs. Teresa Mors, had met death in the apartment they occupied was to be outlined in the state's effort today to send the former pugilist to the gallows.

Already prosecution witnesses have testified that they heard wild screams coming from the apartment she and McCoy occupied on the night of her death, one witness having said that he heard a man running from the apartment.

T. I. Hollingsworth, night man at the garage where McCoy kept his machine, is another witness due to take the stand today. He will repeat former testimony, detailing how McCoy apparently under the influence of liquor left the garage in his automobile early on the night of Mrs. Mors' death.

Police Officer Paige is scheduled to relate how the Kid staggered into the Hollywood police station at 3:45 a. m., then drove with him in his car, and how he was persuaded to go to the door of his apartment within which then lay the body of McCoy's ninth love.

BRAINERD LADIES BAND PROGRESS

Rehearsals Are Held Every Wednesday Evening, Much Interest Manifested

BAND'S BIG OBJECTIVE

Ladies Band Plans on Participating in Parade at Time of State Elks Convention

The Brainerd Ladies Band, only recently organized, is making excellent progress in its rehearsals that are held each Wednesday evening, and it is the hope of the organization to make its first public appearance in about three months. The band's big objective seems to be the matter of participating in the parade at the Elks state convention to be held in Brainerd next summer, at which time the members hope to make as good a showing as any of the musical organizations that take part.

The third rehearsal of the band was held on Wednesday evening. Twenty of the members were present, of the twenty-five enrolled, the balance not as yet having received their instruments which were only recently ordered. Two of the members are ill, but are keeping up their practice though they cannot attend rehearsals.

Mrs. Norman F. Ziebell, director of the band, states that she hopes to recruit the membership to forty or fifty. A number of ladies have signified a desire to join, or have decided to join after the Christmas holidays. These include ladies who have had no experience with a band instrument, and several who already play.

The director is in need of two

mellophones, a bass horn, a tenor saxophone, piccolo, flute, several cornets and clarinets to complete the instrumentation originally planned. It is hoped to perfect a quartet of saxophone and one of trombones, for special selections, in which the balance of the band will act as accompanist.

The band is giving a benefit mo-

tion picture show at the New Park theatre the three days previous to Christmas, and will have a special feature an orchestra composed of band members.

Any who are interested in joining this band are asked to get in touch with Mrs. Ziebell as quickly as possible, preferably before the next rehearsal.

BRAINERD LADIES BAND PROGRESS

Rehearsals Are Held Every Wednesday Evening, Much Interest Manifested

BAND'S BIG OBJECTIVE

Ladies Band Plans on Participating in Parade at Time of State Elks Convention

The Brainerd Ladies Band, only recently organized, is making excellent progress in its rehearsals that are held each Wednesday evening, and it is the hope of the organization to make its first public appearance in about three months. The band's big objective seems to be the matter of participating in the parade at the Elks state convention to be held in Brainerd next summer, at which time the members hope to make as good a showing as any of the musical organizations that take part.

The third rehearsal of the band was held on Wednesday evening. Twenty of the members were present, of the twenty-five enrolled, the balance not as yet having received their instruments which were only recently ordered. Two of the members are ill, but are keeping up their practice though they cannot attend rehearsals.

Mrs. Norman F. Ziebell, director of the band, states that she hopes to recruit the membership to forty or fifty. GAME FARM AND FISH HATCHERY

BRAINERD has a chance to get a game farm for this county, said President A. A. Weideman of the Game and Fish Protective club. He had been in correspondence with J. F. Gould, state game and fish commissioner, and D. A. Peterson, chief warden for over a year and believes such a thing can be obtained.

Matters have progressed so far that Mr. Gould may include it in his budget. "What is required on this end," said Mr. Weideman, "is to secure a site for the game farm." There should be at least 160 acres in the tract. The commission will fence the land, put in the coops and other buildings necessary for the maintenance of wild life, will pay for custodian and keep of the animals, in fact everything is taken care of by the state, except the purchase of the necessary land.

On this game farm can be raised most successfully Chinese pheasants, English pheasants, wild turkeys, wild ducks, geese, etc. The game farm would be a most effective show place, of great interest to tourists, sportsmen and others and would be a standing advertisement as to what this section can do in the preservation and propagation of game.

The land does not have to be of high agricultural value. The tract may include some swamp land and will be all the better if it also contains rice beds, etc.

The latest information on the fish hatchery is that the state will get a tract of land from the federal government. Some money was raised in Brainerd for a proposed site. Both these projects are of tremendous importance. They will do much to stimulate interest in Brainerd and the recreational features it is famous for.

The Game and Fish Protective club has called a meeting for Friday evening at the Chamber of Commerce rooms and all members and citizens generally who are interested in the preservation and propagation of game and fish, should attend. A community gets things when it goes after them. Nothing ever comes to a community which merely sits and waits, like Mr. Micawber, for something to happen.

THE Spanish retreat in the Moroccan mountains seems to be an accelerated one.

WITH vaccination the procedure is to "try, try again" until it "takes."

Other People's Opinions

Communications are not to exceed 500 words. All must be signed, and will be published with name of writer.

A Question of Great Importance

How much was given by Minneapolis, St. Paul, St. Cloud or Duluth toward building the Crow Wing County Court House? Does any one know of them giving a single cent? The writer noticed in a copy of the Brainerd Dispatch of November 11, the following bills paid out to outside concerns, Fritz-Cross, \$67.50; Miller Davis Co., supplies (2 bills) \$287.04; Sec. Blank Book & Ptg. Co., books and supplies (3 bills) \$107.46; Poucher Ptg. & Litho Co., supplies, \$31.23. And on October 24, the following items, Miller-Davis Co., books and blanks (6 bills) \$111.96; Fritz-Cross Co., supplies \$71.08; West Publishing Company \$30.25, and several other bills too numerous to mention, which the writer has noticed of having been sent out of town to be done. Now, would ask those in charge what is the reason that this money which is paid by the tax payers of Crow Wing County should be sent out of town? Brainerd has four job printing establishments and also a Stationery Supply house, institutions, any of which would be able to handle this work and keep the money in Crow Wing County. Our employers and employees are Brainerd people in every sense of the word, and the writer is sure, after totaling all these amounts up, that it would bring a great deal of work and put a good deal of money into circulation in Brainerd and the vicinity, that St. Paul, Duluth and St. Cloud and other cities mentioned, are having the benefit of. I'll tell you, gentlemen, the whole matter of fact is this: Unless you operate in every way, shape and fashion with Brainerd ideas and Brainerd industries you will never become a one hundred per cent unit in building up Brainerd. And, while we have the matter under comment, I would ask the same question of some other institutions who do business in Brainerd and send a considerable portion of their business which they have done, out of town. Remember that you are not a real citizen of Brainerd if you stand on the street corner and holler your head off about trading in Brainerd and then run around the next corner and send a post office order to Sears Roebuck, Montgomery Ward or some other institution. To be loyal to Brainerd in one thing means to be loyal in all things, and whenever any institution or private individual has reached that point, at that time and that time only will you be able to hold up your hand and say "I am one hundred per cent loyal," to Brainerd.

I'll tell you, gentlemen, the whole matter of fact is this: Unless you operate in every way, shape and fashion with Brainerd ideas and Brainerd industries you will never become a one hundred per cent unit in building up Brainerd. And, while we have the matter under comment, I would ask the same question of some other institutions who do business in Brainerd and send a considerable portion of their business which they have done, out of town. Remember that you are not a real citizen of Brainerd if you stand on the street corner and holler your head off about trading in Brainerd and then run around the next corner and send a post office order to Sears Roebuck, Montgomery Ward or some other institution. To be loyal to Brainerd in one thing means to be loyal in all things, and whenever any institution or private individual has reached that point, at that time and that time only will you be able to hold up your hand and say "I am one hundred per cent loyal," to Brainerd.

"MANHATTAN" OF THE LEGION

Sale of Tickets for the Show is More Than Exceeding Expectations

IT'S A BENEFIT PICTURE

Plot is Full of Action from Start to Finish, Not a Dull Moment Anywhere

The sale of tickets for the American Legion benefit show, "Manhattan," at the New Park Theatre today and Friday, is more than meeting expectations, and the local post hopes to make this show a big financial success, for the funds realized therefrom are to be used in extending the activities of the organization, especially along civic lines.

"Manhattan" was chosen for this benefit picture because it is felt that the film is based along lines that will please the largest number. The plot is full of action from start to finish, there isn't a dull moment anywhere.

The star is Richard Dix, and the role he carries seems to have been cast especially for him. Jacqueline Logan supports him in a manner that will make everyone fall in love with her. The balance of the cast is especially strong, so that "Manhattan" comes to Brainerd as one of the outstanding pictures of the season, and the American Legion feels that it is very fortunate in securing the film for its benefit show.

The committee in charge of the ticket sale asks that any who have not as yet been given an opportunity to purchase tickets for "Manhattan," see any Legionnaire at once and the tickets will be forthcoming.

PRIMARY ELECTION, CHAMBER COMMERCE

F. H. Gruenhagen And O. A. Peterson
Named For The
Presidency

ELECTION BOARD IS BUSY

A. L. Hoffman Reports on Proposed
Box Factory in
Brainerd

F. H. Gruenhagen, present incumbent, and O. A. Peterson received the highest number of votes at the primary election of officers at the Chamber of Commerce on Wednesday evening, and will be the nominees for the presidency of that association in its general election at the next meeting.

The other results of the primary election are as follows: for first vice president, Walter M. Murphy and

Henry I. Cohen; second vice president, R. R. Gould and W. A. Spencer; third vice president, W. J. Hall and F. E. Stout.

The fourteen receiving the highest number of votes for directors of the Chamber, are S. R. Adair, A. L. Hoffman, Con O'Brien, Henry I. Cohen, Dr. J. A. Thabes, B. L. Lagerquist, J. F. Cibazar, O. A. Peterson, Dr. R. A. Beise, B. S. Armstrong, W. C. Cobb, R. R. Gould, F. A. Farrar and G. S. Swanson.

A. L. Hoffman, a member of the special committee appointed to look into the matter of securing a box factory for Brainerd, reported that this committee has investigated the local situation, and found it very promising for such an enterprise. An ideal site is available with the necessary trackage, and electric power can be secured at a very reasonable rate. This information was sent to F. W. Graham, who is planning to start the factory, but he has not as yet replied to it.

At a previous meeting of the Chamber Henry I. Cohen was select-

ed as a delegate to the eighth annual meeting of the Ten Thousand Lakes of Minnesota Association, in session at the Ryan hotel, St. Paul. Resolutions from the Chamber were conveyed to the convention by Mr. Cohen, outlining the successful work done by R. R. Wise, president of the lakes association, and his untiring efforts in its behalf, in advertising Minnesota's great playground.

In these resolutions the Chamber went on record as endorsing the excellent work done by Mr. Wise and expressed the hope that the Ten Thousand Lakes of Minnesota may see fit to express its appreciation of this work by continuing the present incumbent as president.

The resolutions further stated that the Chamber of Commerce has gone on record as realizing the value of the lakes association as the most

prominent factor in the state in advancing the summer tourist business and expressed the hope that this association be continued in its entirety and that it receive the endorsement of the citizens of Minnesota, as it has in the past, so that it may keep up the good work for which it was created.

On motion duly carried, the Chamber of Commerce voted to purchase a \$10 Christmas seal bond, the campaign for which has already been launched.

The next regular meeting of the Chamber falls on Wednesday, December 24th, and since this is Christmas eve, it was voted to postpone the meeting until the following Monday, December 29th, at which time the general election of officers will be held.

New members accepted at the

meeting on Wednesday evening included Henry J. Graebner, Virgil Quantrom, Martius Seeger, L. C. Markowitz, Lester Boyd and Wyaerne Shranklin.

PRIMARY ELECTION, CHAMBER COMMERCE

F. H. Gruenhagen And O. A. Peterson Named For The Presidency

ELECTION BOARD IS BUSY

A. L. Hoffman Reports on Proposed Box Factory in Brainerd

F. H. Gruenhagen, present incumbent, and O. A. Peterson received the highest number of votes at the primary election of officers at the Chamber of Commerce on Wednesday evening, and will be the nominees for the presidency of that association in its general election at the next meeting.

The other results of the primary election are as follows: for first vice president, Walter M. Murphy and

Henry I. Cohen; second vice president, R. R. Gould and W. A. Spencer; third vice president, W. J. Hall and F. E. Stout.

The fourteen receiving the highest number of votes for directors of the Chamber, are S. R. Adair, A. L. Hoffman, Con O'Brien, Henry I. Cohen, Dr. J. A. Thabes, B. L. Lagerquist, J. F. Cibazar, O. A. Peterson, Dr. R. A. Beise, B. S. Armstrong, W. C. Cobb, R. R. Gould, F. A. Farrar and G. S. Swanson.

A. L. Hoffman, a member of the special committee appointed to look into the matter of securing a box factory for Brainerd, reported that this committee has investigated the local situation, and found it very promising for such an enterprise. An ideal site is available with the necessary trackage, and electric power can be secured at a very reasonable rate. This information was sent to F. W. Graham, who is planning to start the factory, but he has not as yet replied to it.

At a previous meeting of the Chamber Henry I. Cohen was select-

ed as a delegate to the eighth annual meeting of the Ten Thousand Lakes of Minnesota Association, in session at the Ryan hotel, St. Paul. Resolutions from the Chamber were conveyed to the convention by Mr. Cohen, outlining the successful work done by R. R. Wise, president of the lakes association, and his untiring efforts in its behalf, in advertising Minnesota's great playground.

In these resolutions the Chamber went on record as endorsing the excellent work done by Mr. Wise and expressed the hope that the Ten Thousand Lakes of Minnesota may see fit to express its appreciation of this work by continuing the present incumbent as president.

The resolutions further stated that the Chamber of Commerce has gone on record as realizing the value of the lakes association as the most

prominent factor in the state in advancing the summer tourist business and expressed the hope that this association be continued in its entirety and that it receive the endorsement of the citizens of Minnesota, as it has in the past, so that it may keep up the good work for which it was created.

On motion duly carried, the Chamber of Commerce voted to purchase a \$10 Christmas seal bond, the campaign for which has already been launched.

The next regular meeting of the Chamber falls on Wednesday, December 24th, and since this is Christmas eve, it was voted to postpone the meeting until the following Monday, December 29th, at which time the general election of officers will be held.

New members accepted at the

meeting on Wednesday evening included Henry J. Graebner, Virgil Quantrom, Martius Seeger, L. C. Markowitz, Lester Boyd and Wyaerne Shranklin.

FREE VOLUNTARY VACCINATION

Miss Eula Michael Reports That Nearly 800 Local People Have Been Vaccinated

DOES NOT INCLUDE SCHOOLS

City is Grateful to Local Physicians Who Gave of Services so Generously

The free voluntary vaccination, offered by the city the past week, closes tonight. Miss Eula Michael, city nurse, reports that in this time nearly 800 local people have been vaccinated.

This number is in addition to the many children who received free vaccination in the public schools, and also many shopmen who received free treatment through the N. P. B. A.

The city is very grateful to the local physicians who gave of their time so generously, and who did the work without charge. The work of the Northwestern Hospital Healin Service Society is also very much appreciated. Under the direction of Mrs. F. M. Kelly, members of this society and other ladies of the city, assisted in the work of vaccination, first in preparing the bandages and later in getting the patient prepared for the vaccination.

The process of vaccination is of interest, and is given herewith:

Preparation: The skin in the region of the place to be vaccinated is thoroughly cleansed, sometimes with soap and water, or with alcohol or ether. A drop of the virus is then placed upon the cleansed skin. There are three methods of vaccination:

(a) The method of incision, or linear abrasion. By means of a sterilized needle or other suitable instrument held in the right hand, a scratch, not deep enough to draw blood, is made through the drop of virus, one-quarter of an inch long and parallel to the humerus. The virus is then gently rubbed in with the side of the needle or other smooth sterile instrument. Some blood-tinged serum may ooze through the abrasion as the virus is rubbed in, but this should not be sufficient to wash the virus out of the wound.

(b) The drill method—A sterile drill, such as is used for the von Pirquet cutaneous tuberculin test, shaped like a small screw driver with a moderately sharp end not more than two millimeters wide, is held between the thumb and middle finger, and with a twisting motion and moderately firm pressure, a small circular abrasion, the diameter of the drill, is made through the drop

of virus; this should draw no blood.

(c) The multiple puncture method—A sterile needle is held nearly parallel with the skin and the point pressed through the drop of virus so as to make about six oblique pricks or shallow punctures, through the epidermis to the cutis.

McAULIFFE TELLS OF BARE FIST FIGHTING

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Dec. 11.—"Some of these critics who keep pointing back to the tough times of the old bare-knuckle days give me a laugh. When they say it took more gameness to fight a man who had bare fists than a man with the gloves, they don't know what they're talking about," Jack McAuliffe, the retired unbeaten lightweight champion said recently, in a fanning bee about the old times.

"A good hitter can inflict more damage with a light glove than he can with the bare fist, because he can hit harder and he can get better punches on the face or body with a glove than he could with the bare hand.

"The big advantage a fighter has in a glove is that he has something to get a grip on. In the old days when I was fighting with bare fists, I used to try to sneak a match-stick or something or a handful of grass in my hand. They would give me something to grip. Otherwise the muscles of the hand would get so tired that it was almost impossible to grip the hand tightly or to even close it.

"You will notice that many runners have regular cork grips to put in their hands when they are running. The idea is following the same theory of the old fight days."

McAuliffe pointed out that with the gloves it is sometimes possible to sneak something into the hand to add to the force of the blow or to get something inside the bandages or the lining of the glove.

"In our days," he said, "it was impossible to get a plaster of paris case on the hands or to hold an iron slug in the hands like some of the fighters do now. The beatings that some of the modern boxers have to take now could not have been inflicted in the bare knuckle days."

It always has been maintained by some critics, who do not feel friendly toward the champion, that Dempsey had his hands packed when he fought Jess Willard at Toledo and won the championship. The story was denied by all concerned and the insistence with which Jimmy de Forest clung to the statement that Dempsey had nothing but ordinary tape on his hands added strength to the other denials.

De Forest trained Dempsey for the Willard fight and was his chief second during the battle. De Forest has no reason to stretch a point of truth for the champion, as he was let out right after the fight and there is no reason why he should feel tied by any bonds of loyalty to cover it up if Dempsey's hands were slugged with plaster of paris.

It seems unusual, however, that Dempsey should have caved in the face of the giant Willard when he had never inflicted such damage on other opponents before that time and has never shown such crashing power since then.

CARLETON COLLEGE
MAY HAVE OCT. 17
DATE WITH MINNESOTA

Carleton College, Northfield, Minn. may meet the University of Minnesota in football on Oct. 17.

Minnesota and Wabash's "Little Giants" are tentatively booked but if the Indiana school is not landed the date may be filled with Carleton.

It is known, however, that Minnesota is not keen about booking games with other colleges in the state. The same situation exists at Iowa and Wisconsin.

It is believed by the heads of these institutions that booking football games with other colleges located within the state tends to stir up feeling that is not always beneficial. They believe it is better to book games with colleges from outside the state and thus keep harmony and a united support of the state schools from within the state.

Iowa could have an attractive schedule by booking Iowa State, Drake and Coe colleges all located in the state respectively at Ames, Des Moines and Cedar Rapids, but it is felt that it would not be a good thing. In Wisconsin there is a strong move

on to try and force the university to play Marquette university of Milwaukee, but the same situation exists there.

There are many people in the Twin Cities who would like to see one of the state colleges yearly upon the Gopher schedule. Some have suggested that one game a year be played rotating, but such does not appear feasible.

St. Thomas, Hamline, Macalester, Carleton, St. Olaf are the five leading schools and undoubtedly any one would draw as well if not better than Wabash, but the university authorities are possibly correct in their idea that such games would be in the long run more harmful to Minnesota than beneficial.

The game with Butler college of Indianapolis, which is coached by Pat Page, former University of Chicago star athlete, has been definitely signed for Nov. 7.

McAULIFFE TELLS OF BARE FIST FIGHTING

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Dec. 11.—"Some of these critics who keep pointing back to the tough times of the old bare-knuckle days give me a laugh. When they say it took more gameness to fight a man who had bare fists than a man with the gloves, they don't know what they're talking about," Jack McAuliffe, the retired unbeaten lightweight champion said recently, in a fanning bee about the old times.

"A good hitter can inflict more damage with a light glove than he can with the bare fist, because he can hit harder and he can get better punches on the face or body with a glove than he could with the bare hand.

"The big advantage a fighter has in a glove is that he has something to get a grip on. In the old days when I was fighting with bare fists, I used to try to sneak a match-stick or something or a handful of grass in my hand. They would give me something to grip. Otherwise the muscles of the hand would get so tired that it was almost impossible to grip the hand tightly or to even close it.

"You will notice that many runners have regular cork grips to put in their hands when they are running. The idea is following the same theory of the old fight days."

McAuliffe pointed out that with the gloves it is sometimes possible to sneak something into the hand to add to the force of the blow or to get something inside the bandages or the lining of the glove.

"In our days," he said, "it was impossible to get a plaster of paris case on the hands or to hold an iron slug in the hands like some of the fighters do now. The beatings that some of the modern boxers have to take now could not have been inflicted in the bare knuckle days."

It always has been maintained by some critics, who do not feel friendly toward the champion, that Dempsey had his hands packed when he fought Jess Willard at Toledo and won the championship. The story was denied by all concerned and the insistence with which Jimmy de Forest clung to the statement that Dempsey had nothing but ordinary tape on his hands added strength to the other denials.

De Forest trained Dempsey for the Willard fight and was his chief second during the battle. De Forest has no reason to stretch a point of truth for the champion, as he was let out right after the fight and there is no reason why he should feel tied by any bonds of loyalty to cover it up if Dempsey's hands were slugged with plaster of paris.

It seems unusual, however, that Dempsey should have caved in the face of the giant Willard when he had never inflicted such damage on other opponents before that time and has never shown such crashing power since then.
